index

OF EDITORIAL CONTENT—1st HALF 1959

How to Use this Index

Every article appearing in *Business Week* during the first six months of 1959 is comprehensively indexed in this volume. All articles are indexed alphabetically by subject and by the names of individuals, private businesses and government agencies in all cases where such were either the subject of the story reported or had a primary relationship to the topic covered. The following paragraphs are offered as a guide to the index.

Business Organizations. Industries are indexed under their simple designations such as: "Aviation," "Shipbuilding," "Textiles," etc. In addition, all articles having reference to a private company will be found under that company's name.

Labor. General labor news is indexed under such broad headings as "Wages," "Employment," "Labor," and the like. Reference should also be made to the various government labor agencies and to individual companies. Because the full names of many trade unions are not generally well known, trade union items are indexed by parent organization, under "AFL-CIO," or "Independent Unions," and then in turn under subheads by the trade or industry in

which they operate. There is one exception: the railroad brotherhoods are indexed only under "Railroads—Labor."

Government. The permanently established departments of the Federal Government will be found under "D," "Department of the Treasury," "Department of Defense," and "Post Office Department."

Independent Commissions and Special Emergency Agencies. These will be found arranged alphabetically by their established names. In addition, they are also indexed under their field of activity.

Reference Dept. Many individual headings suggest other entries (See also . . .) which may be consulted in looking for specific articles. If, however, you cannot find a specific article, or you would like any general information about material which *Business Week* has published, do not hesitate to make direct inquiry by mail or telephone to *Business Week* Library, 330 West 42nd Street, New York 36, N. Y.; telephone LOngacre 4-3000, extension 3297.

JANE G. RACZKA, Librarian

How to Use this Book

The purpose of this book is to provide a comprehensive guide to the use of the various tools and techniques available to the user. It is designed to be a practical reference work, containing detailed instructions and examples of the use of the various tools and techniques available to the user. The book is divided into two main parts, the first of which deals with the general principles of the use of the tools and techniques, and the second of which deals with the specific details of the use of the various tools and techniques. The first part is divided into three sections, the first of which deals with the general principles of the use of the tools and techniques, the second of which deals with the specific details of the use of the various tools and techniques, and the third of which deals with the specific details of the use of the various tools and techniques. The second part is divided into two sections, the first of which deals with the specific details of the use of the various tools and techniques, and the second of which deals with the specific details of the use of the various tools and techniques. The book is designed to be a practical reference work, containing detailed instructions and examples of the use of the various tools and techniques available to the user.

BUSINESS WEEK INDEX

January-June, 1959

A

ACF Industries, Inc.

Has plan for leasing railroad freight cars to its customers; First deal is with Pennsylvania RR # p58, Mar.14

AFL-CIO

See also Independent Unions; Labor; Dept. of Labor; National Labor Relations Board; Wages; Supplementary Unemployment Benefits

NAACP Attacks Bias in Unions: Issues ultimatum, may go to court to press its fight for equal rights p78, Jan.10

BUSINESS Conditions

Economists Raise Their Sights for New Year: Year-end convention sees GNP topping expectation of even two months ago (with 6 illus) p46, Jan.3

Profits Aplenty Awaiting in '59: The only question seems to be how much more abundant the gravy will be p19, Jan.3

Unions, Management Wide Apart On Economic Policies for '59 p57, Jan.3

Modest hopes for continued recovery, expressed in the President's economic report, seem fully justified # p19, Jan.24

Lessons of 1958's Recession: It moved companies to chop off excess fat (with 4 illus) p79, Jan.31

Construction is a mainspring in the recovery, one which helped start it and will continue to keep it ticking # p11, Feb.7

Economic Report Draws a Storm of Protest p30, Feb.14

For 1959, a Gentle Upward Slant: Some forces in 1958 recovery spurt are slowing, but rising income and profits spell out a gradual uptrend (with 8 charts) p32, Feb.21

March is going to look pretty good—even though recovery may not round out quite so big a first quarter as had been hoped six months ago # p19, Mar.7

On the business outlook, Eisenhower and his advisers seem confident. Here's why # p44, Mar.14

Steel promises to dominate second-quarter news. There will be new records for dollar value of production, for physical volume of production, and for corporate profits # p25, Mar.28

The Indexes Break Records . . . and confirm recovery. Unemployment stays high though (with table) p36, Apr.18

We can just about stop calling this lusty one-year-old a "recovery." It's big, enough now so it has to be "the new boom" # p19, Apr.18

Business gains are coming a little harder now. The momentum isn't quite what it was # p15, May 2

Built-In Contracyclic Policy: Federal budget, swinging toward surplus sooner than expected, provides a built-in economic stabilizer (with chart) p23, May 9

Steel wage negotiations are bound to cast their shadow over business for the next several weeks # p19, May 9

Output in this country not only has recovered all the recession's loss and to spare; it is half again what it was 10 years ago # p19, May 23

Washington wants to put a brake on the boom. One reason is economics; the other is politics. Here are some of the braking moves # p41, May 23

Slight Jolt, Then Steady Climb: U.S. economy will take third-quarter hurdle without a drop, then head for half-trillion dollar mark in 1960 (with chart) p25, May 30

Planless Planning (Trend) p140, Jun.6

Business is still on the upswing. But the month-to-month gains are leveling off ever so slightly # p19, Jun.13

Surging hardgoods are lifting the economy. Softgoods don't have quite as much zip in their sales and production charts # p21, Jun.20
